

## Records included in the Toronto Branch OGS Electronic Search

The following indexes and transcriptions are included in our master database of genealogical information. Note that the geographical coverage extends far beyond the current boundaries of Toronto. This reflects the fact that before the creation of York Region Branch, Toronto Branch was responsible for all of York County. Our Places of Worship committee has also enjoyed a close working arrangement with Halton-Peel Branch, which allows us to include some resources in those counties. You'll also see some Orangeville records, now in Dufferin County. We know that our Toronto ancestors frequently stepped over the boundaries of today's Toronto, so we're very pleased to be able to include these additional assets. But please note that coverage for these areas is far from complete.
